Competitions

- Our Competitions program coaches and helps top performing students prepare for selected national and international competitions in Robotics, Science, Math, Innovation, Arabic Reading and Poetry.
- The Competitions program helps deepen students' innovative thinking, develops their practical STEAM skills, and teaches them how to work together as a team.

[Learn more](#)

Learning Journeys

- Starting in 2020, students will get the chance to travel to national and international centres of excellence, world renown for being at the forefront of major innovations and technology such as renewable energy, fintech, medicine, water conservation, coding and robotics.

[Learn more](#)

Gamification

- We believe learning should be fun and relevant for our students! That's why we created our own app called Rize. On the Rize app, students collect points and badges by completing exciting tasks set for them by their teacher in the form of educational online games relevant to their subject. The goal is to collect as many badges and points for a chance to be chosen to participate in the upcoming Competitions and Learnings Journeys.

Enrichment Programs

Competitions

Our Competitions program coaches and helps top performing students prepare for selected national and international competitions in Robotics, Science, Math, Innovation, Arabic Reading and Poetry.

The Competitions program helps deepen students' innovative thinking, develops their practical STEAM skills, and teaches them how to work together as a team.

Preparation includes:

- Technical skills & team building
- Competition strategy & performance
- Communicating and presenting ideas in global environments (for international competitions)

Skills to be developed:

- Teamwork
- Innovation
- Problem solving and analytical skills
- Critical thinking
- Presentation skills
- Time management
- Resilience
- Opportunity to meet with other national and international students and experts
- Cultural exposure when traveling to other countries to compete

What types of Competitions will students get the chance to participate in?

We put together teams to compete in multiple competitions in the areas of Science, Technology, Engineering, Math, Innovation, Reading, Arts and Music. More information about specific competitions will be provided when the student joins.

Who gets to participate in Competitions?

Students are selected from the Rize Annual Program based on their attendance, performance, enthusiasm for the subject, teamwork and overall participation.

How do I put my child forward to participate?

Detailed information about Competitions will be announced during classes. If you have any further questions, please speak to the teacher or any Rize Enrichment Program staff member located at the selected Rize schools!

Learning Journeys

Starting in 2020, students will get the chance to travel to national and international centres of excellence, world renown for being at the forefront of major innovations and technology such as renewable energy, fintech, medicine, water conservation, coding and robotics.

What locations do Learning Journeys go to?

We partner with well renowned global education institutions to develop innovative and cutting-edge education curriculums for our students.

Who gets to participate in these Learning Journeys?

Students are selected from our Annual Rize Program based on their attendance performance, enthusiasm for the subject, teamwork and overall participation.

How do I put myself or my child forward to participate?

Detailed information about Learning Journeys will be announced during classes. If you have any further questions, please speak to the teacher or any Rize Enrichment Program staff member located at the selected Rize schools!
